EXPERIENCE

Freelance / Independent Projects

Graphic & Digital Designer

- Designed independent projects across web, product, and campaign touchpoints, including learning products, mobile app concepts, and SaaS websites.
- Built visual systems, landing pages, and interface concepts to turn product ideas into clearer digital experiences.

JD.COM

Graphic Designer

Beijing, China | 2021 – 2023

- Developed a standardized page system for merchant product pages at JD Industrial, contributing to longer browsing time and lower bounce rates.
- Designed campaign visuals, merchant page systems, and a B2B recruitment website across app and web channels to improve content clarity and promotional performance.
- Supported stronger collaboration and faster execution by helping standardize design workflows and reusable visual assets.

Starlight Education

Visual Designer

Beijing, China | 2019 – 2021

- Built and refined visual systems for learning products and campaign assets to improve consistency and collaboration across teams.
- Led design iterations for the Qukeduo learning product and created visual assets that supported stronger communication and conversion.
- Designed app UI, website visuals, and campaign assets for Aurora Word across product and marketing touchpoints.

Digital Homeland Technology

Visual Designer

Beijing, China | 2018 – 2019

- Supported brand identity development and marketing visuals for child focused smart hardware products.
- Created promotional assets, campaign materials, and day to day brand communication graphics across digital and product touchpoints.
